**Caffé Kitchen Line**  
**330-726-9988**

Thank you for visiting Caffè Capri.  
It is a pleasure to have you as our guest. If there is anything  
we can do to make your experience with us more enjoyable,  
please let us know. Thank you again.

*The Quaranta Family*

### The Origin of Spaghetti

Anybody's guess would be that spaghetti is of Italian origin. But such is not the case. However, Spaghetti was the name of an ordinary seaman in the crew of Marco Polo's flagship on a visit to the Orient many centuries ago. He little realized when he dined on the beach with a winsome Chinese maiden that he was changing the eating habits of the world.

Food historians say this Chinese maiden was mixing bread dough beneath a tree when young Spaghetti approached her and declared his undying love.

He spoke so fervently that she forgot her task. A gust of wind blew some leaves from the tree into the bowl of dough. The sailor, a resourceful lad, removed the leaves from the mixture by forcing the dough through a wicker basket which served as a sieve.

The lovers then became so interested in themselves that they forgot the dough, which dried in thin strands in the sun. When the sailor departed, the girl presented him with the dried strands of dough. The sailor took the strands aboard the ship, cooked them and found them delicious. The new delicacy came to be loved by all the members of the crew and finally by Marco Polo himself.
